Filed : March 29, 2001                                      Conf. No. : 3784  
Title : SEMICONDUCTOR DEVICE AND METHOD OF MANUFACTURING THE  
SAME

**Mail Stop Amendment**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

REPLY TO ACTION OF MARCH 13, 2006

In reply to the Office Action of March 13, 2006, Applicant submits the following remarks.

35 U.S.C. § 112 rejections

Claims 4, 23 and 28 were rejected because the claim features “wherein the at least one bridge is exposed within at least one of the recesses” and “wherein the rear surface of the at least one bridge is covered by an insulating film” in claim 4 allegedly are contradictory and, therefore, the claim cannot be understood. Applicant respectfully disagrees.

According to claim 4, a bridge is exposed within one or more recesses, which are in the “insulating *resin*.” A rear surface of the bridge is covered by an “insulating *film*.” Since the insulating *resin* and an insulating *film* refer to different features, claim 4 is not contradictory.

CERTIFICATE OF MAILING BY FIRST CLASS MAIL

I hereby certify under 37 CFR §1.8(a) that this correspondence is being deposited with the United States Postal Service as first class mail with sufficient postage on the date indicated below and is addressed to the Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

Date of Deposit

July 11, 2006
